### DETAILED ACTION

Receipt of the amendment filed on 2-28-03 is acknowledged.

Newly submitted claims 30-37 are drawn to a composition: The composition has different structure at the hinge region and different amount of arsenite than previously examined claims. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 33-37 are withdrawn from consideration as being directed to a different invention. See 37 C.F.R. § 1.142(b) and M.P.E.P. § 821.03. Claims 25, 28-37 pending and claims 25, 28, and 29 examined on merits.

#### ***Claim Rejections - 35 USC § 112***

Rejection of claim 25 under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention **is withdrawn** in view of the amendment.

Claim 25 **remains rejected** rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to **make** the invention.

Applicant argues that the scope of the claimed invention should be read in view of the teachings of the specification and the specification teaches how to make monospecific  $F(ab')_2$  homogenous as to the heavy chain C-terminal amino acid residues. However, the argument is not persuasive because the specification teaches that Cys Ala Ala is the only one product that is homogenous as to the heavy chain C-terminal amino acid residues. This rejection affects all dependent claims.

#### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
